Subject: RE: Bullet points re: Rosemont Mine

Thanks everyone for your help in pulling these bullet points together and will look for the final talking points/materials to come my way from Paul Amato. Sorry for the quick turnaround following my call this morning from Sylvia Quast asking if we had what we needed in the event we were asked about Rosemont and Florence Copper. The bullet points are only for Steven Leonido-John and I to have if we're asked and not for proactive discussions on our part.

Brent Maier

I inserted the bullets. Alexis will not be covering the AZ congressional visits. It will be Stephen Leonido-John and Brent Maier. Thanks everyone.

I did not prepare, but the one-sheet for AZ has a short paragraph on RM that does not mention NEPA. I doubt it will come up with congressionals unless Grijalva's staff ask about it, and I'm pretty confident Alexis knows enough already (we've been out for a while, 404 decision is with SPD, etc etc).

Jason –
See below. Have you prepared anything on Rosemont? I heard from David that Paul Amato is compiling Water Division's input and he already had something on Florence Copper, so I'm wondering if there is already something on Rosemont into which we could slip a NEPA bullet or two, if NEPA is not already addressed.

Sam, David –

☐ Have your offices been asked to prepare anything on Rosemont Mine or Florence Copper, respectively, for Alexis' upcoming Congressional visits? ENF heard from Brent Maier that Sylvia Quast requested some bullets as

background... Since the Forest Service issued its Rosemont ROD last year, there hasn't been any NEPA activity on that

Deliberative Process / Ex. 5

Turnaround time may be tight. My understanding is that input to Alexis' package was originally requested by COB today, but we just heard about this specific request. I don't think my office is the appropriate one to have the lead on either of these, but I'm happy to help if you need any input from us, and I'd like to see the Rosemont bullets if NEPA is mentioned.
